

Battery module for UPS2 emergency power supply

- **Uninterruptible power supplies are designed for automation, access control and security systems where a continuous supply must be guaranteed**
- **The battery used is a 12V – 4Ah (hermetic lead battery)**
- **A replaceable microfuse is also integrated in the battery module to protect the battery**
- **The maximum applicable capacity is 14Ah**
- **Furthermore, we recommend for the disposal of used rechargeable batteries, to observe the national ordinance**

Technical data:

Input voltage	12 VDC
Output voltage	12 VDC
Overload capacity	None
Current Ampère	500mA
Power	4Ah
Connection type	Screw connection
Function	DC – UPS
Signal contact	No
Dimmable	No
Mounting	Top-hat rail
Protection class	IP20
